

Regence Connections

This April, we will be holding our next series of Regence Connections meetings.

The featured presentations include:

- Regence’s House Bill 2002 Legislative Update (CE Credit Pending Approval)
- Our new product for groups of 2+ introduces a wellness incentive. As the next generation of self-managed plans, your clients have the opportunity to offer their employees a product where lifestyle choices have a direct impact on their health and their wallets. This new product is in addition to InnovaSM and EngageSM.
- At the same time, we’re extending InnovaSM and EngageSM to groups of 100+ subscribers (Previously offered only to groups of 2 to 99)

We want you to be the first to learn more about these innovative products and our update on House Bill 2002. Save the date and learn more. The schedule is as follows:
